Forecast for Monday 09 May 2022

Weather: Dry sunny spells for much of the day, but increasing high cloud making any sunshine rather hazy. From late-afternoon onwards areas of broken cloud will develop over some western slopes, with more extensive low cloud developing as outbreaks of rain and drizzle spread from the west mid-evening onwards.

Chance of cloud-free hill tops above 600m: 95% or better for much of the day, but deteriorating to 40% by early evening and 10% or less as cloud lowers in outbreaks of rain and drizzle.

Low cloud and visibility: Isolated patches of cloud on some slopes near 500m at first otherwise cloud holding clear of the summits for much of the day with generally good visibility. Areas of broken cloud base 500m will develop over western slopes mid-afternoon onwards, with more extensive low cloud developing near 400m in rain and drizzle during the evening. Visibility below cloud will fall to a few km or less in rain and drizzle.

14:00 on Sun 08 May 2022	0mm	1.4mm	1.4mm

Forecast for Tuesday 10 May 2022

Weather: Outbreaks of rain and drizzle during the early hours will ease and clear before dawn, with much of Tuesday morning dry with bright spells. Scattered showers will develop in the afternoon, with the odd heavy one possible before they gradually ease during the evening.

Maximum wind: Southwesterly 25-30mph gust 35-40mph.

Chance of cloud-free hill tops above 600m: 10% or less in rain and drizzle at first, improving to 70% as the rain clears and 100% by midday.

Low cloud and visibility: Extensive low cloud base 300-400m at first will lift and break as the rain and drizzle clears, leaving only patchy cloud near 700m which will occasionally shroud the higher routes. Even this cloud will lift clear of the summits by midday. Visibility in rain and drizzle will be restricted to a few km at best, otherwise visibility will generally be good, with only temporary deteriorations to a few km in any heavier afternoon showers.

Temperature: **Valleys:** Plus 9 Celsius becoming plus 16 Celsius.
At 600m: Plus 8 Celsius.
Freezing level: Above the summits.
